

Math LAB Syllabus

2020-2021

Mrs. Miller

Yorba Linda Middle School * Room 17

Welcome Students and Parents!

Welcome to Math Lab! I am very excited to have a wonderful year with all of you! This class is focused on supporting your core math class and enriching your mathematical abilities. To achieve this, we will work as a team to strengthen study habits, critical thinking skills, problem solving skills, organizational skills, positive mindsets, and much more! All this is done through class activities and the Math 180 software. I am looking forward to a great year with you all.

In addition to the Math 180 curriculum, the textbook from your core math classes will support this class as well.

Textbook: Big Ideas Math, Course 2 (red)

Workbook: Big Ideas Math, Record and Practice Journal (red)

Online access:

ADDITIONAL POLICIES

- Very little homework will be assigned in this class. If there is homework, it will be posted on the board and on my website.
- **This class requires a lot of participation and positive behavior. Students should be ready to participate and learn during every class period. We will do many projects and in class activities. Failure to do so will result in consequences.**
- Late work will be accepted with a point deduction.
- Students must have access to their Aeries account.
